# VIHANGA SACHINTHA

**Software Engineering Intern**

+94 78 176 6094 Thunhitiyawa, Madulla, Udupussallawa

vsrrajakaruna@gmail.com LinkedIn Medium My portfolio GitHub

## SUMMARY

Software Engineering undergraduate with a strong foundation in full-stack web development, cloud computing, and mobile application development. Proficient in .NET, C#, JavaScript, React.js, Express.js, and the MERN stack, with hands-on experience developing scalable and user-focused applications through academic and personal projects. Demonstrates strong problem-solving skills, adaptability, and attention to detail in building efficient software solutions. An active volunteer with proven teamwork and leadership abilities, committed to continuous learning and contributing effectively in a professional environment.

## EDUCATION

**BSc (Hons) in Software Engineering** 2023 – 2027 (Expected)

Sabaragamuwa University of Sri Lanka

**Relevant Coursework:** Object-Oriented Programming, Data Structures & Algorithms, Database Management Systems, Software Engineering, Web Development, Computer Networks, Operating Systems, Human-Computer Interaction, Information Systems Analysis & Design, Software Project Management, Cloud Computing, Parallel & Distributed Systems, Advanced Database Management System, Software Architecture, Software Design Patterns, Software Engineering Economics, Social Computing

**N/W Sri Sumangala National College** 2019 – 2021

Advanced Level: Combined Mathematics, Physics, Chemistry

## SKILLS

### Technical Skills

- **Programming Languages:** Python, C#, JavaScript, SQL, .NET
- **Web Development:** React.js, Express.js, HTML, CSS, Tailwind CSS
- **Mobile App Development:** React Native (Expo)
- **Tools & Technologies:** Git, GitHub, Jira, Postman, Figma, MySql Workbench, Visual Studio Code, Antigravity, JetBrains Rider, WebStorm
- **Concepts & Practices:** REST API, MVC Architecture, JWT Authentication, OOP, Agile, Scrum

### Soft Skills

- Leadership, Teamwork, Problem-Solving, Creativity, Presentation and Communication, Critical Thinking, Adaptability, Time Management, Emotional Intelligence, Decision-Making, Work Ethic

## PROJECTS

**Integrated Academic Information System (Group – Team Lead)** GitHub **2026 – Ongoing**

*Group Project (Team Lead – 5 Members) | Tech: React Native, .NET, MySQL, JWT, RESTful APIs*

- Led a 5-member team to develop a secure and scalable mark management system for academic performance tracking.
- Implemented role-based access control (Admin, Teacher, Student) with JWT authentication for secure system access.
- Designed RESTful APIs using .NET for marks management, filtering, ranking, and real-time result processing.
- Developed features for automatic report generation (PDF & Excel) and real-time notifications for result publishing.

**Velora Cosmetics –** GitHub: Frontend | Backend **2025 – 2026**

*Individual Project | Tech: React.js, Node.js, Express.js, MongoDB, JWT, Supabase 2025, Tailwind CSS*

- Developed a full-stack cosmetics e-commerce web application with a responsive UI, dynamic product browsing, search, and filtering features to enhance user experience.
- Implemented secure JWT-based authentication and built RESTful APIs for product management, cart functionality, and order processing, integrating Supabase for efficient backend services.

**ChatTranz (Group – Team Lead)** GitHub **2025**

*Group Project (Team Lead – 3 Members) | Tech: Flutter, Firebase, WebRTC*

- Developed a real-time chat application with live message translation and a modern, user-friendly UI.
- Implemented real-time messaging using Firebase and integrated WebRTC for seamless communication features.
- Designed an attractive and responsive interface to enhance user experience across devices.

**Car Parking Management System** GitHub **2025**

*Group Project (Team Lead – 3 Members) | Tech: React.js, Node.js, Express.js, MongoDB, Tailwind CSS*

- Develop a full-stack parking management system with role-based access control for employees, visitors, and administrators.
- Implemented real-time parking slot tracking, permit management, and automated registration to improve efficiency and space utilization.
- Developed RESTful APIs and a responsive UI to streamline parking operations, reduce manual processes, and enhance user experience.

## EXTRACURICULLAR ACTIVITIES & LEADERSHIP

- Vice Chairperson, PerlHack 2.0 (Ongoing) - Sabaragamuwa University of Sri Lanka
- Volunteer - HOPE V2.0 Day 01, IEEE Student Branch, SUSL 2025
- Volunteer - HOPE V2.0 Day 02, IEEE Student Branch, SUSL 2025
- Volunteer - HOPE V2.0 Day 03, IEEE Student Branch, SUSL 2025
- Program Team Member - IEEE Day 2025 Celebration
- Volunteer - ComURS 2025 (Computing Undergraduate Research Symposium)
- Technical Volunteer - ICMR (Interdisciplinary Conference of Management Researchers)
- Volunteer - MURS (Management Undergraduates' Research Session)

## LICENSES & CERTIFICATES

- HTML course – DP Education IT Campus
- CSS & JavaScript Complete Course for Beginners – Udemy
- Git, GitHub & Markdown Crash Course: Learn Git, GitHub & MD – Udemy
- Golang – KodeKloud
- Introduction to JIRA – Simplelearn
- Introduction to Internet of Things – Cisco Networking Academy
- Introduction to Artificial Intelligence – LinkedIn Learning
- Networking Foundations: Networking Basics – LinkedIn Learning
